PRODUCT INFORMATION SHEET

LC-GMRC-LAN-03 **GM LAN DATA BUS INTERFACE**

The LC-GMRC-LAN-03 is designed to be used in non-amplified GM vehicles or in vehicles that the OEM amplifier has been bypassed; Onstar is not retained in either case. The LC-GMRC-LAN-03 retains all the factory warning chimes that would be lost when the OEM radio is removed. It will also provide a 3 amp 12 volt switched accessory for proper radio operation, and retain the R.A.P. (Retained Accessory Power) feature if equipped.
